

## Walnut Grove Ecology Club 2007-2008

The Walnut Grove Ecology club was founded 5 years ago when Walnut Grove adopted the Go Green Initiative. The Go Green Initiative is a simple comprehensive program designed to create a culture of environmental responsibility on school campuses across the nation. The Ecology Club's mission is to provide meaningful environmental education for children in fun and developmentally appropriate ways. Speakers, collaborative activities, videos, and DVD's, presentations, and field trips are used to enrich students' understanding of stewardship. The club meets the first Tuesday of each month from 3-4 pm in Room 212. It is open to students who are in Kindergarten through 5<sup>th</sup> grade. Parent volunteers are often needed to assist. Please fill out the form at the bottom and return to Room 212 or bring to the first meeting on October 2<sup>nd</sup>.
